SUMMARY

10+ years of experience as a full stack in designing, developing, implementing, testing, and maintaining scalable and high-performance Web, Mobile and Backend applications. Adept at collaborating with cross-functional teams to deliver robust solutions that meet client requirements. Seeking a challenging role to leverage my technical skills and contribute to innovative projects in a dynamic and growth-oriented environment.

Strong leadership skills demonstrated through successful project delivery by managing teams of cross-functional engineers.

PROFESSIONAL WORK EXPERIENCE.....

MV-Parts , Flutter Mobile & Java API Developer Philadelphia – United States	Jul. 2023 – Present
Nafi Properties , Web & Mobile Engineer Dallas – United States	

- Work collaboratively with cross-functional team to design, develop, and implement high-quality and scalable mobile applications using Flutter, Dart, and related technologies.
- Lead the design and development of RESTful APIs using Java Spring framework, ensuring optimal performance, security, and scalability.
- Collaborate with front-end developers to integrate API endpoints seamlessly with web and mobile applications, enhancing user experience.
- Conduct code reviews, promoting best practices and adherence to coding standards.
- Implemented microservices architecture to enhance modularity and maintainability of the application.
- Implemented CI/CD pipelines using Docker, and GitHub Actions, ensuring continuous integration and delivery of software solutions.
- Collaborated with the QA team to ensure the delivery of high-quality software through automated testing and continuous integration.
- processes and enhance user experience.

- Proficient in designing and implementing robust REST APIs to ensure seamless integration with diverse systems.
- Demonstrated ability to meet tight deadlines while maintaining high-quality standards.
- Strong problem-solving and communication skills, collaborating effectively with cross-functional teams.
- Stay abreast of emerging technologies and industry trends to drive continuous improvement.
- Excels in a fast-paced, dynamic environment, contributing to the success of projects through creativity and technical expertise.
- Committed to delivering cutting-edge solutions that align with business objectives and exceed customer expectations.

IStorezhona company, Web & Mobile App Developer

Feb. 2019 – Jun. 2023

Ghana – West Africa

- Developed and maintained multiple web applications using Laravel, adhering to industry best practices and coding standards.
- Supervised, managed and led the development of advanced cross-platform mobile applications from ideation to launch; implemented Dart in Flutter and Firebase NoSQL to achieve 95% crash-free users and 85% positive reviews.
- Designed and developed a large-scale Angular application using NgRX and RxJS for state management. Implemented actions, reducers, selectors, and effects to manage application state and handle asynchronous operations efficiently, scaling application by 30%.
- Collaborated with product owners and managers to establish service level objectives for applications and integrated into the release management process; shrunk mean- time-to-recovery by 50% and remodeled application uptime by 30%.
- Authored automated tests using various Flutter test packages, ensuring the reliability and quality of applications.
- Conducted user surveys to collect feedback on product usability, analyzed data using Excel, and presented findings to the development team; enabled the team to prioritize 10 critical features, diminished bugs by 40%.
- Engineered a robust and scalable bank payment platform that aligned with the company's internal needs, utilizing agile methodology; minimized transaction failure rate by 40% and exceeded payment success rate by 25%.
- Conceptualized and administered the development of POS software using NodeJS and ElectronJS; modified the software for high-volume transactions, scaled-down checkout time by 50%, resulting in a 20% increase in daily sales.
- Responded to critical system failures outside of business hours by troubleshooting and providing clear communication to stakeholders, cut-down downtime by 40%.

- Masterminded an ecommerce website from scratch, utilizing typescript in Angular and RESTful API using Laravel and Spring Boot; contracted bounce rate by 20% within the first month of deployment.
- Revamped mobile app performance and user experience by implementing efficient State Management Solution using flutter packages; Provider/Bloc pattern to enhance mobile app performance and maintain code scalability. user feedback in every iteration; added-on customer satisfaction rating by 30% and lessened user churn rate by 25%.

WebOnCore company, Software & Mobile Engineer
Ghana – West Africa

May. 2018 – Nov. 2020

- Steered and implemented a caching system that abridged database efficiency by 65%, reformed read and write performance by 40% and push-up application availability by 20%.
- Cooperated with other lead UI/UX designers and backend developers to develop cross-platform SaaS ERP system for corporate bodies and other startup companies; accelerated productivity by 50% and boosted sales by 35%.
- Optimized flutter dart mobile app performance and user experience by implementing data driven UX design, NoSQL firebase database and integrating user feedback in every iteration; increased customer satisfaction rating by 30% and reduced user churn rate by 25%.
- Interfaced Laravel app with external data sources, vendors and servers with RESTful APIs and SDKs; reducing workload by 25% margin.
- Architected and built mobile app with scalable architecture and reusable code patterns; implemented modular and efficient codebase that reduced development time by 20% and maintenance costs by 30%.
- Developed Java Spring Boot RESTful API and integrated with interactive client UI for Public Procurement Authority; easing long queues by 60% and capping human resources by 35%.
- Influenced in the full development cycle, end-to-end, from design, implementation, and testing to documentation, delivery, and maintenance; bolstering employees' effectiveness by 30%.
- Communicated goals with team members to direct creating and implementing standards and best practices; achieving 75% reduction in preparation time of standard client materials.

Unique Hub System, Web Developer
Ghana – West Africa

Sept. 2017 – Apr. 2018

Berachot School, Web Developer
Edenville – South Africa

Jan. 2017 – Jul. 2017

Internship Africa, Web Developer
Newyork – United States

Feb. 2015 – Dec. 2016

Globafitness, PHP Web Developer
Utah, United States

Mar. 2014 – Nov. 2015

Chris Gold, Web Developer
Ghana – West Africa

Mar. 2013 – Oct. 2014

EDUCATION.....

Sikkim Manipal University, India Tadong, Gangtok –737 102
Bachelor's Degree – Information Technology
Oct. 2010 to Oct. 2014

The Cloud Bootcamp
Multi-Cloud & DevOps
Apri. 2023

Pirple
The NodeJS Master-Class
Mar. 2021

Microsoft Verified Certificate
Advanced Angular
Sept. 2018

SKILLS.....

- **Programming Languages:** Java, Python, Dart, JavaScript, TypeScript, PHP, Html
- **Web Technologies:** Java Spring Framework (Boot, MVC, MVVM, Security), Python Django, NodeJS, RESTful APIs, Microservices, JSON, XML, Angular, PHP Laravel
- **Mobile & Desktop:** Dart Flutter (IOS, Android, MacOS, Windows, Linux & Web)
- **Database Systems:** MySQL, PostgreSQL, SQL, Firebase
- **Version Control:** Git, GitHub
- **Build Tools:** Maven
- **Testing:** Flutter Test, JUnit, Mockito

- **Containerization & Automation:** Docker, Git-Action
- **Cloud Platform:** AWS, Google Cloud
- **Project Management:** Agile (Scrum & Kanban)
