

HOW TO RESPONSE TO A RECRUITER IF HE/SHE SENDS YOU A JOB OFFER

Hi [Recruiter's name],

Thank you for reaching out and for considering me for the Node.js Lead Developer role. I appreciate the detailed job description and your confidence in my profile. The opportunity sounds interesting, especially with the emphasis on Node.js, AWS, and the opportunity to lead a development team.

However, before I move forward with the next step, I would like to clarify a couple of things regarding the role. Could you provide more details about the team structure, the specific AWS services or projects the team is currently focused on, and the work culture at the company?

I'd also be very happy to discuss my experience and what I'm looking for in my next opportunity. If this role aligns with my skills and career goals, I'd be keen to explore it further.

Looking forward to hearing from you!

Best regards,
Anthony Stephen
