JPMorgan Chase
8181 Communications Pkwy Ste C,
Plano, Texas 75024

Dear Hiring Manager,

I am excited to apply for the Software Engineer position at JPMorgan Chase. With hands-on experience in engineering a full stack software development, database management and my ongoing pursuit of a Master's in Computer Science at Southern Methodist University, I am eager to contribute to your innovative work in building scalable, resilient, and secure technology solutions that has made JPMorgan Chase a leader in investment banking, consumer and small business banking, asset management, and more for over 200 years.

In my roles, I have spearheaded and contributed to projects involving both frontend and backend applications. As a Full-Stack Engineer at MV-Parts, I led the development of microservices and API using Java Spring Boot, boosting application performance by 30%. I led the development of a University Evaluation API using Python and MySQL. Additionally, I also developed web and mobile apps using Dart, Flutter, and GCP Firestore tools, which resulted in a 40% reduction in user-reported issues.

I have gain hands-on experience in system design, ensuring scalable and resilient solutions, and have worked within Agile teams to deliver high-quality products. My technical toolkit includes Python, Java, PHP, database management, and modern development frameworks. Additionally, I am proficient in using CI/CD pipelines for efficient deployment and working with cloud environments, particularly using GCP Firestore and AWS.

I am excited about the opportunity to contribute to JPMorgan Chase's trusted market-leading technology products. And your recognition that your strength and success directly depend on your people and the diverse talents they bring to your global workforce. I am eager to bring my skills, passion for technology and collaborative mindset to your engineering team.

Thank you for considering my application. I look forward to discussing how my skills align with your needs. Please feel free to contact me at 971-895-0579 or via email at aaryee@smu.edu to schedule a conversation.

Sincerely,
Anthony Stephen Aryee
